

# SAFETY DATA SHEET

In accordance with 1907/2006 annex II and 1272/2008  
(All references to EU regulations and directives are abbreviated into only the numeric term)  
Amendment date 2025-04-01  
Replaces SDS issued 2024-08-29  
Revision date 2024-08-29  
Version number 1.1

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

Trade name 3D901

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Identified uses For industrial plastic processing

### 1.3. Details of the supplier of the safety data sheet

Company BIQ Materials AB  
Östra Hamnen 21  
475 42 Hönö  
Sweden  
Telephone 031-3000530  
E-mail info@biqmaterials.com

### 1.4. Emergency telephone number

Phone number for emergencies: 999 or 112. The numbers are available 24/7.

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

Upon assessment, this mixture is not classified as hazardous according to 1272/2008

### 2.2. Label elements

Hazard pictogram Not applicable  
Signal word Not applicable  
Hazard statement Not applicable

### 2.3. Other hazards

Danger of dust explosion on formation of fine dust.

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

The product contains no substances, nor concentration levels thereof, that require marking or that need to be declared.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Generally

In case of concern, or if symptoms occur, call a doctor/physician.  
Never attempt to administer liquid, or anything else, to an unconscious person via the mouth.

#### Upon breathing in

Fresh air and rest. If symptoms persist seek medical advice.

#### Upon eye contact

Remove contact lenses immediately if possible.  
Rinse the eye for several minutes with lukewarm water. If irritation persists call a doctor/ophthalmologist.

**Upon skin contact**

Remove contaminated clothes.  
Wash the skin with soap and water.  
If symptoms occur, contact a physician.

**Upon ingestion**

Rinse nose, mouth and throat with water.  
If symptoms persist contact a doctor.  
DO NOT induce vomiting.

**4.2. Most important symptoms and effects, both acute and delayed****Upon breathing in**

Inhalation of dust may cause coughing and irritation.

**Upon eye contact**

Irritation may occur.

**Upon skin contact**

Irritation may occur.

**Upon ingestion**

May cause irritation of mucous membranes, nausea and vomiting.

**4.3. Indication of any immediate medical attention and special treatment needed**

Symptomatic treatment.

## SECTION 5: Firefighting measures

**5.1. Extinguishing media****Recommended extinguishing agents**

Extinguish with water mist, powder or foam.

**Unsuitable extinguishing agents**

May not be extinguished with water dispersed under high pressure.

**5.2. Special hazards arising from the substance or mixture**

Dust can create an explosive mixture with air.  
In case of fire gases hazardous to the health may be formed, e.g. carbon monoxides and carbon dioxides.

**5.3. Advice for firefighters**

Protective measures to be taken with regard to other materials at the scene of the fire.  
In case of fire use proper breathing apparatus.  
Wear full protective clothing.  
Containers in the proximity of fire should be moved and cooled down with water.  
Cool closed containers that were exposed to fire with water.  
Contain and collect extinguishing liquid.

## SECTION 6: Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Keep unauthorized and unprotected people at a safe distance.  
Avoid inhalation and exposure to skin and eyes.  
Avoid dust formation.  
Switch off equipment which has an exposed flame, glows, or has a heat source of some other kind.  
Ensure good ventilation.  
Use recommended safety equipment, see section 8.

**6.2. Environmental precautions**

Avoid release to drains, soil or watercourses.

**6.3. Methods and material for containment and cleaning up**

Carefully collect the product without generating dust and dispose of at a waste collection point.  
Do NOT use tools emitting sparks when cleaning.  
Rinse area thoroughly with water.

**6.4. Reference to other sections**

See section 8 and 13 for personal protection equipment and disposal considerations.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Take the necessary preventive and protective measures for safe handling.  
Avoid inhalation and contact with skin and eyes.  
Work in order to avoid spillage. If spillage does occur, address it immediately in accordance with the directions specified in Section 6 of this safety data sheet.  
Avoid handling in a manner which will raise dust.  
Avoid open fire, hot items, sparks or other ignition sources.  
Store this product separately from food items and keep it out of the reach of children and pets.  
Do not eat, drink or smoke in premises where this product is handled.  
Wash your hands after using the product.  
Remove contaminated clothing.  
Wash contaminated clothing before reuse.  
Keep away from incompatible products.  
Use recommended safety equipment, see section 8.  
Implement appropriate engineering controls if necessary, see Section 8.

### 7.2. Conditions for safe storage, including any incompatibilities

The product should be stored in a manner which prevents hazards to health and the environment. Avoid exposure to humans and animals and do not discharge the product in a sensitive environment.  
Take the necessary preventive and protective measures for safe storage.  
Keep out of reach for children.  
To be stored away from food and animal fodder and away from devices or surfaces that are in contact with those items.  
Store tightly, in original packaging.  
Always use sealed and visibly labeled packages.  
Store in dry and cool area.  
Store in a well-ventilated space.  
Keep away from heat and sunlight.  
Do not store close to incompatible materials (see section 10.5).

### 7.3. Specific end use(s)

See identified uses in Section 1.2.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### 8.1.1. National limit values

All ingredients (cf. Section 3) lack occupational exposure limit values.

#### DNEL

No data available.

#### PNEC

No data available.

### 8.2. Exposure controls

The risks posed by the product or its constituents must be considered in the task specific risk assessment, in accordance with current working environment legislation. The risk assessment should be reviewed regularly and updated if necessary.

#### 8.2.1. Appropriate engineering controls

The ventilation in the workplace must ensure an air quality that meets the requirements of the current working environment legislation. Local exhaust ventilation should be used to remove airborne contaminants at the source.

#### Eye/face protection

Use protective glasses with tight seals according to standard EN166.

#### Skin protection

Use suitable protective clothing.  
Use protective gloves fulfilling the standard EN374 if there is a risk of direct contact.  
During continuous contact use gloves with a minimum breakthrough time of at least 240 minutes, preferably over 480 minutes.  
The most suitable protective glove should be chosen in consultation with the glove supplier, taking into account the risk assessment for the specific task and the properties of the chemicals involved. Note that the breakthrough time of the material is affected by the duration of the exposure, temperature conditions, abrasion, etcetera.

## Respiratory protection

Use appropriate respiratory protective equipment in case of insufficient ventilation.

The most appropriate respiratory protective equipment should be decided in consultation with the appointed safety representative, taking into account the risk assessment for the specific task.

Based on the physical and chemical properties of the product, the following filter type(s) and/or filter combination(s) are recommended:.

– P2.

### 8.2.3. Environmental exposure controls

For limiting environmental exposure, see section 12.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

(a) Physical state	solid
	Form: solid
(b) Colour	brown
(c) Odour	scentless
(d) Melting point/freezing point	Not indicated
(e) Boiling point or initial boiling point and boiling range	Not indicated
(f) Flammability	Not indicated
(g) Lower and upper explosion limit	Not indicated
(h) Flash point	Not indicated
(i) Auto-ignition temperature	Not indicated
(j) Decomposition temperature	Not indicated
(k) pH	Not indicated
(l) Kinematic viscosity	Not indicated
(m) Solubility	Solubility in water: Insoluble
(n) Partition coefficient n-octanol/water (log value)	Not indicated
(o) Vapour pressure	Not indicated
(p) Density and/or relative density	1.13
(q) Relative vapour density	Not indicated
(r) Particle characteristics	Not indicated

### 9.2. Other information

#### 9.2.1. Information with regard to physical hazard classes

Not indicated

#### 9.2.2. Other safety characteristics

Not indicated

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product contains no substances which can lead to hazardous reactions at normal use.

### 10.2. Chemical stability

The product is stable at normal storage and handling conditions.

### 10.3. Possibility of hazardous reactions

Dust can create an explosive mixture with air.

### 10.4. Conditions to avoid

Avoid heat, sparks and open flames.

Avoid handling in a manner which will raise dust.

Protect from direct sunlight.

Protect from moisture.

### **10.5. Incompatible materials**

Avoid contact with:  
Strong oxidizers.  
Bromine.  
Fluoride.  
Fluorine.  
Hydrogen peroxide.  
Perchlorates.  
Perchloric acid.

### **10.6. Hazardous decomposition products**

None under normal conditions.

## **SECTION 11: Toxicological information**

### **11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

Information on possible health hazards are based on experience and / or toxicological properties of several components in the product.

#### **Acute toxicity**

The product is not classified as acutely toxic.

#### **Skin corrosion/irritation**

The product is not classified for skin corrosion/irritation.

#### **Serious eye damage/irritation**

The product is not classified for serious eye damage/eye irritation.

#### **Respiratory or skin sensitisation**

The product is not classified as sensitising.

#### **Germ cell mutagenicity**

The product is not classified as mutagen.

#### **Carcinogenicity**

The product is not classified as carcinogenic.

#### **Reproductive toxicity**

The product is not classified as a reproductive toxicant.

#### **STOT-single exposure**

The product is not classified for specific organ toxicity after single exposure.

#### **STOT-repeated exposure**

The product is not classified for specific organ toxicity after repeated exposure.

#### **Aspiration hazard**

The product is not classified as being toxic for aspiration.

### **11.2. Information on other hazards**

#### **11.2.1. Endocrine disrupting properties**

No information is available.

#### **11.2.2. Other information**

Not indicated.

## **SECTION 12: Ecological information**

### **12.1. Toxicity**

The product is not to be labelled as a environmental hazard. However, it is not inconceivable that large emissions, or repeated small emissions, can have a harmful effect on the environment.  
Prevent release on land, in water and drains.

### **12.2. Persistence and degradability**

The product contains certain components which are easily degradable.

### **12.3. Bioaccumulative potential**

No information is available.

### **12.4. Mobility in soil**

Information about mobility in nature is not available.

#### **12.5. Results of PBT and vPvB assessment**

No information is available.

#### **12.6. Endocrine disrupting properties**

No information is available.

#### **12.7. Other adverse effects**

No information is available.

### **SECTION 13: Disposal considerations**

#### **13.1. Waste treatment methods**

##### **Waste handling of the product**

The product is not classified as hazardous waste.

Empty, rinsed packaging is sent for recycling where practicable.

Avoid discharge into sewers.

See directive 2008/98/EC on waste. Observe national or regional provisions on waste management.

### **SECTION 14: Transport information**

Where not otherwise stated the information applies to all of the UN Model Regulations, i.e. ADR (road), RID (railway), ADN (inland waterways), IMDG (sea), and ICAO (IATA) (air).

#### **14.1. UN number or ID number**

Not classified as dangerous goods

#### **14.2. UN proper shipping name**

Not applicable

#### **14.3. Transport hazard class(es)**

Not applicable

#### **14.4. Packing group**

Not applicable

#### **14.5. Environmental hazards**

Not applicable

#### **14.6. Special precautions for user**

Not applicable

#### **14.7. Maritime transport in bulk according to IMO instruments**

Not applicable

#### **14.8 Other transport information**

Not applicable

### **SECTION 15: Regulatory information**

#### **15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture**

Not indicated.

#### **15.2. Chemical safety assessment**

Assessment and chemical safety report in accordance with 1907/2006 Annex I has not yet been performed.

### **SECTION 16: Other information**

#### **16a. Indication of where changes have been made to the previous version of the safety data sheet**

##### **Revisions of this document**

Earlier versions

2024-08-29 Changes in section(s) 1.

#### **16b. Legend to abbreviations and acronyms used in the safety data sheet**

##### **Explanations of the abbreviations in Section 14**

ADR European Agreement concerning the International Transport of Dangerous Goods by Road

RID Regulations concerning the International Transport of Dangerous Goods by Rail

IMDG International Maritime Dangerous Goods Code

ICAO International Civil Aviation Organization (ICAO, 999 University Street, Montreal, Quebec H3C 5H7, Canada)

IATA The International Air Transport Association

## 16c. Key literature references and sources for data

### Sources for data

Primary data for the calculation of the hazards has preferentially been taken from the official European classification list, 1272/2008 Annex I, as updated to 2025-04-01.

Where such data was not available, alternative documentation used to establish the official classification was used, e.g. IUCLID (International Uniform Chemical Information Database). As a second alternative, information was used from reputable international chemical industries, and as a third alternative other available information was used, e.g. material safety data sheets from other suppliers or information from non-profit associations, where reliability of the source was assessed by expert opinion. If, in spite of this, reliable information could not be sourced, the hazards were assessed by expert opinions based on the known hazards of similar substances, and according to the principles in 1907/2006 and 1272/2008.

### Full texts for Regulations mentioned in this Safety Data Sheet

- 1907/2006 REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC
- 1272/2008 REGULATION (EC) No 1272/2008 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006
- 2008/98/EC DIRECTIVE 2008/98/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 19 November 2008 on waste and repealing certain Directives

## 16d. Methods of evaluating information referred to in 1272/2008 Article 9 which was used for the purpose of classification

Hazard calculation for this mixture has been performed as a cumulative assessment with the aid of expert assessments in accordance with 1272/2008 Annex I, where all available information which may be significant to establishing the hazards of the mixture was assessed together, and in accordance with 1907/2006 Annex XI.

## 16e. List of relevant hazard statements and/or precautionary statements

## 16f. Advice on any training appropriate for workers to ensure protection of human health and the environment Warning for misuse

Not indicated.

### Other relevant information

Not indicated

### Editorial information

This material safety data sheet has been prepared and checked by KemRisk®, KemRisk Sweden AB, Platensgatan 8, SE-582 20 Linköping, Sweden, [www.kemrisk.se](http://www.kemrisk.se)
